

Bringing eDiscovery Excellence to China

Local Convenience, Global Reach

Your success is our goal. No matter the size or complexity of your project, Epiq is committed to supporting you with comprehensive legal support services to help you consistently achieve your eDiscovery objectives.

Global Expert

Epiq has been working closely with global law firms and corporations to solve eDiscovery challenges in Asia since 2008. As a global leader in providing best-quality legal technology products and services for electronic discovery and document review, we tailor our approach to your unique needs—no matter the location, size or complexity of your project.

Local Partner

We are a truly local, full-service eDiscovery provider in Greater China, with local leaders and staff fluent in Chinese who possess expertise in local cultural, professional and regulatory practices.

Our team is experienced in managing data sensitivities, including potential state and trade secrecy risks. We can recommend and implement the most effective eDiscovery strategies while maintaining global security and confidentiality standards. Our project managers in China coordinate with our global teams to provide you with seamless, reliable, around-the-clock support.
